### **DETAILED ACTION**

#### ***Allowable Subject Matter***

1. The following is a statement of reasons for allowance: the prior art teaches the basics of the independent claims, 1, 26, and 36, including liquid crystal display of the type having a layer of cholesteric liquid crystal material disposed between a pair of unpatterned conductors and a light absorbing layer for forming an image wise thermal pattern in response to an image wise pattern of light. The prior art also teaches applying a first, second and third RMS voltage to the conductors, wherein the third voltage is less than the first and second voltages.

However, the prior art does not teach in alone or in a proper combination, that in addition to the above discussed limitations that the exposing step occurs more than 1 second after applying the first voltage.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
